Webaa Enterprise is engaged in exporting and trading the best quality products. Our organization

is here for the customers and we serve in their pursuit of healthy lives. This has been the way of Webaa's for more than a century—passionately and thoughtfully translating science into lasting contributions to health. We are a third-party manufacturing company that provides the best world-class quality medicines. Our quality management group consists of experts from the pharmaceutical industry who are dedicated to ensuring that our products comply with relevant monographs, and are also manufactured in compliance with Good Manufacturing Practices (GMP). It's our firm policy for all our pharma-grade products to comply with the relevant legal requirements relating to the countries in which our products are made and sold. We work with the company who follows all GxP module (Good Manufacturing Practice, Good Documentation Practice, Good Laboratory Practice, Good Engineering Practice) to ensure the product is manufactured with high quality, safe and effective.

Amphotericin B Injection

As we are instrumental in providing excellent quality of Amphotericin B Injection. Amphotericin B is an antifungal. It is typically infused gradually intravenously over a time of 2 to 6 hours once day by day. It is utilized to assist the body with defeating genuine fungal diseases. Testing a small dose is usually given first to see how you react to the medicine. Then we know the type of diseases, and how well we tolerate the drug.

Product Details:
